

MET & MET2

Located in vicinity of Metrotown metropolis and Metrotown Skytrain station, this 37-story and 43-story sister towers design creates a contemporary living space with 1, 2, and 3-bedroom condos and townhomes which range from 511 to 1,638 sqft.

Shurjoint products (up to 6") were used on MET and MET2's chilled, condensed, domestic, and heating water supply systems.
