

One Pacific

One block to everything Vancouver has to offer: the seawall, Yaletown, marina and the exciting sports & entertainment district. This is the first development of Concord Pacific's master-planned False Creek Central community, which is the largest development in the city since the Olympic Village was constructed for the 2010 Winter Games as well with a total of 21 stories, 435 residential units.

Shurjoint products (up to 6") were used on One Pacific's chilled, condensed, domestic, and heating water supply systems.
