

Motor City Mall

The project involves construction of a mall comprising a ground floor and 3 additional floors. The mall will house luxury car brands and will include shops and showrooms all dedicated to the auto industry.

Shurjoint 800 series Ductile Iron Threaded Fittings were approved by the contractor for the Fire Protection System as all threaded fittings are 100% air tested and also have a UL listing and FM approval, rated for 300 psi (CWP), besides the size range is quite comprehensive from ½" to 2½".

Shurjoint grooved couplings & fittings were also specified for HVAC system as they fulfill the higher standard requirement of the contractor.
