

Dubai Metro

The Dubai Metro is the world's first and longest driverless, fully automated metro system, constructed in the city of Dubai, United Arab Emirates.

The trains and stations are fully air conditioned with platform screen doors, and complete mobile and wi-fi coverage across the network.

After a sales demonstration of Shurjoint Ductile Iron Grooved Fittings, the contractors and project managers' were more than happy to utilize them for their fire protection system for all Galvanized 100% air tested Grooved Couplings & Fittings with sizes ranging from 2½" ~ 12".
