

HAMILTON GENERAL HOSPITAL

Hamilton Health Sciences Corporation is one of the province's largest regional healthcare organizations, located at Hamilton, Ontario, Canada. Shurjoint Roll Grooved Ductile Iron Couplings & Fittings size up to 18" were utilized by the contractor for the Co-Generation system, Heating, Cooling system, and Domestic Water service because they are easily to be installed without heat, and is easy to retrofit and maintain. Copper Fittings are lead-free "G" bronze casting per ASTM B-584 copper alloy C90500 and are UL classified per NSF/ANSI 61.
